## What is Whole Dog Training?

Whole Dog Training knows that all dogs are unique and learn differently. We also understand that there are many ways to shape a dog's behavior. Kaye will help you to recognize the best way to work with your dog, as an individual, to learn the commands and behaviors you want. She also explains why this is the best way to help your dog learn, taking into consideration his or her body, mind and spirit as a whole. Whole Dog Training uses only positive reinforcement methods. We have many different options to fit your needs.

Whether you want to encourage new behaviors in an older dog or help your puppy with expectations before any bad habits start, we can help. One hour \$60. Four one hour sessions \$200.
